

# Wolsey Hall Oxford Course Fees for Non-examination Years

## New Students: Upper Primary

### Included in your Wolsey Hall course

All our course fees include any course textbooks or e-books, access to online learning materials and subscriptions, as well as access to a selection of free Wolsey Hall courses and guides. You will be allocated a Student Progress Manager to support you on your journey, in conjunction with your allocated Tutors who will provide periodic feedback on progress and who will be available via our messaging system on our learning platform.

In addition, you will have access to the Wolsey Hall Community area, Clubs and the Virtual Library.

Each Non-examination Year course covers curriculum content equivalent to one academic year of study and is designed to be studied over a period of up to a year. Each course has a 12-month access term to allow for holidays and study breaks.

### How our course fees work

We offer course bundles so the more subjects a student enrolls on, the lower the cost of each course. It is possible to study at different year levels within the Lower Primary, Upper Primary and Lower Secondary phases (this does not include enrolling on the same subject at different levels at the same time), if the entry criteria are met. Our Wolsey Hall Oxford Admissions team will be able to advise if you have any questions about cross-phase bundling for Non-examination Years.

**The tables on the next pages show these bundle fees.** To find the price per course, use the column that represents the total number of courses that your child will be enrolling on now for this academic year, e.g. if your child is enrolling on 3 Upper Primary courses, please use the column entitled '3 course bundle' to see the course prices.

### Additional benefits

We offer a 10% discount to the sibling of a new or current student of Wolsey Hall. The first student from a family enrolled with Wolsey Hall will not receive a sibling discount.

# Wolsey Hall Oxford Course Fees for Non-examination Years

## New Students: Upper Primary

The fees shown below are for payment in full and they include a discount of approximately 5%. If you wish to pay by instalment, please indicate this when you request a quote. You will then make an initial payment followed by six consecutive monthly payments.

**Step 1: Count Your Course Subjects:** List out all the subjects you want to take, together with the likely year group. These could range from Getting Ready for Year 1 level to Year 9, as long as each subject only appears once.

**Step 2: Find the Matching Bundle:** Once you know how many subjects you are taking, find the corresponding bundle column. For instance, if you are taking 5 subjects, look at the 5+ Course Bundle column. Please note that subjects in Lower Primary, Upper Primary and Lower Secondary can be included in your bundle. Short Courses cannot be included in your bundle.

**Step 3: Check the Fees:** In the bundle column you found, locate each subject you listed and note down its fee. Remember, if your subjects are from different phases (like Lower Primary or Lower Secondary), you might need to consult multiple PDFs.

**Example:** Oliver is going to study 4 Upper Primary subjects so his prices are in the 4 course bundle column - English (£610), Maths (£610), Art (£500) and Science (£500). His total cost of courses will be £2,220.

Upper Primary: Courses for Year 3, Year 4, Year 5 or Year 6					
Fee <u>per course</u> depending on quantity selected	5+ course bundle	4 course bundle	3 course bundle	2 course bundle	1 course
English	£570	£610	£670	£790	£1,150
